## NOTICE REGARDING FINAL PAYMENTS

September 1, 2020

On December 20, 2005, the A&I Asbestos Injury Trust (the “Trust”) was created by Order of the Circuit Court of Kanawha County, West Virginia, to satisfy certain Asbestos Bodily Injury Claims.

When the Trust was created, it was anticipated that the income of the Trust would increase and claims asserted under the Trust would decline over the succeeding years. Accordingly, claims were paid at 100% of their liquidated value until the most recent and final payment.

Contrary to the above expectations, claims did not decrease over time, but exceeded any increase in investment income. As a consequence, the Trustee filed a Petition to Terminate the Trust upon Exhaustion of Funds on May 9, 2019.

By the time of the final claims distribution on July 8, 2020, it was necessary to prorate the remaining valid claims. This resulted in the percentage paid to each claimant of 8.46%. When the Trustee files a final report with the Circuit Court, it will be mailed to claimants’ counsel and will contain additional accounting information.
